Textbook Solutions Manual & Textbook Answers ...

Financial accounting: Under financial accounting, business transactions are measured and reported in the form of financial statements. Generally accepted accounting principles (GAAP) are followed while preparing the financial statements. The intended users of the above financial statements are external users like investors, banks, suppliers, and government agencies.

Chapter 3: Understanding Test Quality-Concepts of Reliability and Validity Test reliability and validity are two technical properties of a test that indicate the quality and usefulness of the test. These are the two most important features of a test. You should examine these features when evaluating the suitability of the test for your use.
