Matching an organizations growth pattern to the PPM Maturity Model empowers that organization to take full advantage of tried and true process management in its current level of project management application, while growing into more advanced EPM techniques. This growth is supported by sound scheduling practice.

## **Introduction To a Project Portfolio Management Maturity Model**

Project portfolio management (PPM) is the management of all projects in an organization from a high-level perspective. Many companies use a Project Management Office ( PMO) to handle all activities related to PPM. The PMO is the central hub for all projects in the business, driving PPM on a largely strategic level.
