Now you can make this easier and filter out the irrelevant results. Restrict your search results using the search tools to find only free Google eBooks.

Honda 197cc Engine

All engines. Honda's automatic mechanical decompression system is designed to give you quicker, easier starts. This system, which is connected to the camshaft, reduces compression by opening the exhaust valve slightly when the engine is being started. This reduces the amount of force needed to start the engine and improves starting performance.
