Lecture Notes In Management And Management is defined as the process of getting things done through the efforts of other people. This often involves the allocation and control of money and physical resources. A manager is not a manager if he works alone, i.e., unless involved in the process of getting things done through others.

Principles of Management Lecture Notes

Management is essential, wherever group efforts are needed to be directed towards certain goals. Group efforts become productive only when they are effectively managed. It is the management which plans, organises, coordinates and controls the affairs of an enterprise. Every enterprise makes use of money, machinery and manpower.
