### User's Guide - WF-3620/WF-3640

A style guide, or style manual, is a set of standards for the writing and design of documents, either for general use or for a specific publication, organization or field.The implementation of a style guide provides uniformity in style and formatting within a document and across multiple documents. A set of standards for a specific organization is often known as "house style".

### List of style guides - Wikipedia

The term "manual" or "guide" both usually refer to a document whose main aim is to provide information or instructions. It is generally expected that guide are shorter, concise and more to the point than manual. A manual is expected to give more in-depth information and instruction than a guide. However, in practicality, the terms are often used interchangeably.

Because "manual" has connotations of dense, boring text, some manufacturers or technical writers prefer the label "guide" for what would traditionally be called a "manual." Instructions is the most generic term, and may be synonymous with directions — step-by-step guidance on how to perform a specific task or function.
