every particular project is guided by its own project contract and supervised by quality manual. Main documents referred for smooth operation and implementation of quality standards of the project are : 1.ISO 9001(2000) 2.

MEP Manual - [PDF Document]

MEP offers hands-on activities that allow students to build skills in scientific observation, data collection, and scientific analysis. These monitoring activities are preceded by introductory lessons, as well as review lessons that encourage students to think about what they observed, and the methods used to observe and collect data.
