PROJECT FINANCIAL MANAGEMENT MANUAL

Project Financial Management is one of the strategic processes in a project that aims to plan, direct, monitor, organize and control monetary resources of the project throughout its life-cycle. It is based on the analysis of monetary resources to ensure that every dollar invested in the project is allocated to and spent on right project activities. Along with other strategic processes (such as risk management, time management, change management, etc.) project financial management aims to ...

What is Project Financial Management

PROJECT FINANCIAL MANAGEMENT BEST PRACTICES "We'll use the same definitions, share the same numbers, and reporting will be automated to a much greater extent than it is today. That will save time, enable better analysis, and really give us an opportunity to be best-in-class among our peers."
