SOLIDWORKS Training - Surface Modeling The goal of this course is to teach you how to use surface features to build parts using SOLIDWORKS software. Most of the case studies and exercises in this course are taken from consumer product design applications, and the lessons center around the combined use of solids and surfaces, with the goal always being to create a good solid.

Matt, Is there any way to get my hands on the advanced surfacing training manual? I can't find it on the SolidWorks site. The price for your Surfacing Bible isn't too bad, but it looks like the manual will be more directly applicable to the CSWP-SURF exam. I just blew \$20 on the exam because work interrupted in the middle of the exam.
