Try resetting the Squeezebox. Try a rain dance while wearing a tribal loincloth. You just might get that IP. I recently bought a new router (Buffalo, w/ DD-WRT) and plugged the reset-mode Squeezebox into it (via LAN) and was able to connect to it instantly, so try that first and only go the ad-hoc wireless route if you absolutely have to.

Squeezebox setup without the remote/controller | kill the ...

Follow these simple instructions to get the Squeezebox Controller App installed in those cases - at your own risk: Hit menu while on your home screen, go to Settings, select Applications, and there should be a box for you to check that says "Unknown sources" (or something similar).
