### The Music Box Musical Instruments

A musical box (UK usage; music box in US English) is an automatic musical instrument in a box which produces musical notes by using a set of pins placed on a revolving cylinder or disc to pluck the tuned teeth (or lamellae) of a steel comb. The earliest known mechanical musical instruments date back to 9th-century Baghdad. In Flanders, in the early 13th century, a bell ringer invented a ...

Music box, also called musical box, mechanical musical instrument that is sounded when tuned metal prongs, or teeth, mounted in a line on a flat comb are made to vibrate by contact with a revolving cylinder or disc that is driven by a clockwork mechanism. As the cylinder or disc revolves, small pins or other projections mounted on its surface pluck the pointed ends of the metal teeth, causing ...

In the 1890's, the cylinders inside music boxes were replaced with discs that were easier to store and replace; music box owners could now enjoy a larger variety of songs. This innovation, according to Thaddeus Kochanny of the Automatic Musical Instrument Collector's Association (AMICA), was a step towards the creation of phonographs and player pianos.

A cajón (Spanish: ; "box", "crate" or "drawer") is a box-shaped percussion instrument originally from Peru, played by slapping the front or rear faces (generally thin plywood) with the hands, fingers, or sometimes implements such as brushes, mallets, or sticks. Cajones are primarily played in Afro-Peruvian music (specifically música criolla), but has made its way into flamenco as well.
